

Senator Maynard, Representative Guerrero and Members of the Transportation Committee,

My name is Carol Hery and I am here representing the New England Trail Riders Association in opposition to four bills

1. Proposed S.B. No. 715✓
2. Proposed S.B. No. 811
3. Proposed S.B. No. 820
4. Proposed H.B. No. 5104

My family and myself are all OHV users and we have been involved with helping to open lands for public use. Five years ago my children ages 9 and 11 attended a public hearing for in their riding gear to show their commitment to this cause. As in other states their programs use the monies from the registration of these vehicles to building and maintaining their trail system. This would help economically with dealers scaling their products with actual designated areas to ride. New England Trail Riders Association (NETRA) have youth programs and pride ourselves on safety and education for young riders with camps and schools for skills for members. We desperately need a place to legally ride and it is time for that change.

Sincerely
Carol Hery
Nutmeg Scramblers MC – President
NETRA – BOD member
